

LASERS & DRAGONS & SHIT

Adam Dolin

INT. WAR ROOM - NIGHT

A group of warriors are huddled around a giant strategy table, talking strategy with British accents.

GENERAL

If we don't protect the Queen, the dragons will eat her alive and spit out her bones. They're dragons! That's what they do!

The QUEEN suddenly enters from behind and SLAMS her staff across the table.

QUEEN

We will let the Queen protect herself. Because that's what SHE does.

She whips out a huge laser rifle and cocks it.

DRAMATIC MUSIC BEGINS.

QUEEN

Have the maids arrested for treason.

HEAD MAID

But, your majesty, I swear...

QUEEN

ALL the maids.

(CONTINUED)

The Soldiers slap laser handcuffs on the maid and lead her away.

QUEEN

Looks like I'll have to clean up my  
OWN messes from now on.

The Queen whips out an even bigger Laser Rifle and cocks it.

The town drunk sadly signals for another round.

INT. ARMORY - NIGHT

TITLE OVER BLACK: One Hero...

The Queen is straining to lift a comically large Laser Rifle  
by herself. The Way-Too Handsome Hero steps in to help her.  
She gives him a wry smile, and together they seductively  
lift and cock the rifle.

EXT. BATTLEFIELD - DUSK

TITLE OVER BLACK: One Heroine...

The Queen rides a dragon over a chaotic battlefield as she  
dual-wields laser rifles and fires wildly. She gives another  
roaring battle cry as flames wash over the frame again.

EXT. DIRTY ALLEY - DAY

TITLE OVER BLACK: One Heroin-Addicted Dragon...

A scrawny dragon with a dirty baseball cap and bad tattoos pulls a tourniquet tight with his teeth and blows a very small stream of fire under a spoon.

DRAGON (VO)

You want to step into my world? See the shit I've seen? Nuh uh, dawg. You don't want nuthin' to do with dat shit.

INT. TAVERN - NIGHT

TAVERN OWNER

Wait, the dragon is a heroin addict?

TITLE OVER BLACK: To Salvation.

TAVERN OWNER

That doesn't make any sense.

TOWN DRUNK

See? That's what the tasteful exposition is for. Otherwise you lose the nuance!
